

## Extra-Curricular Activities

St. Rose provides a range of extra-curricular activities for our students, including:

- CYO Sports
- Student Council
- Study Groups

New and exciting activities are introduced with student interest. We believe that our extra-curricular activities help enrich the education of our students.

## Technology

St. Rose has state of the art learning facilities. Each classroom has a video monitor and connections to Channel 1 and other cable stations. A computer network serves the entire school. Each teacher has a computer station and many of the classrooms have specialized computer stations for students. St. Rose also has a 24-station computer lab that all students use for testing and learning.

The Kurek Science Lab is a unique facility. It enables middle school students to learn science through hands-on experimentation using various types of scientific equipment.

## ***Christ is the Reason for this School***

Our Catholic Identity is the foundation for all we do here at St. Rose. Catholic values and beliefs are integrated throughout every aspect of our curriculum. It is just one of the ways we are different from other schools.

Our students participate in religious instruction on a daily basis here at St. Rose. Our religious instruction includes:

- Daily Religion class
- Monday morning prayer services
- Daily prayer
- Weekly Mass attendance
- Sacramental Preparation
- Retreats
- Quarterly service hour requirement

Fr. Tom celebrates mass during Catholic Schools Week

## **Educational Program**

As an accredited institution in the state of Indiana, the Indiana Academic Standards form the foundation for our core curricular areas. Teachers work to assure mastery of those standards, and wherever possible, go above and beyond those standards to give our students a deeper understanding of the concepts. Our education proficiency is well-documented: 94% of our students passed ISTEP in 2006. We also use the NWEA test to benchmark our students' progress three times a year. These results are used to determine instruction for each individual student.

We have a full-time resource teacher on staff to provide assistance to those students with special needs.

instruction with our Art, PE, Music and Library teachers.

Finally, our students are able to participate in Fine Arts

## **Middle School Highlights**

Our middle school program features three highly qualified teachers who teach the four core curricular areas (Language Arts, Math, Science and Social Studies), along with Religion and Computers.

Highlights of our Middle School Program include:

- Team Building Retreat at Camp Rancho Framasa
- Christian Leadership Retreat for 7th grade
- 6th grade trip to Dayton
- 8th grade trip to St. Louis
- Science Fair
- Mission at Challenger Center
- Catholic Schools Week Essay Contest

Our 8th grade class poses before the closing act of Punk 'N Rock, which is one of the highlights of the middle school years.
